Hi Dan,

The SOP for reviewing permit applications is still an outstanding item from the work plan . It's been some time since we discussed the SOP so, I'd like to set up a time later in June to discuss items that still need to be incorporated into the SOP. I'm available most of June 25 and 26 and on June 27 I'm available between 8:00-9:00am or anytime after 3:30 pm. Please let me know if any of these dates work with your schedule, if not please suggest some alternative dates for a call .

Thanks,
julianne
